

**NUCLEAR FARM**

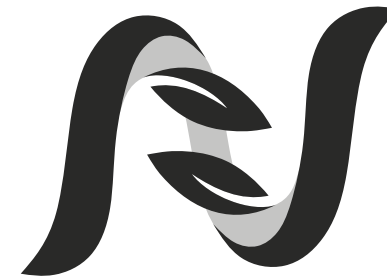

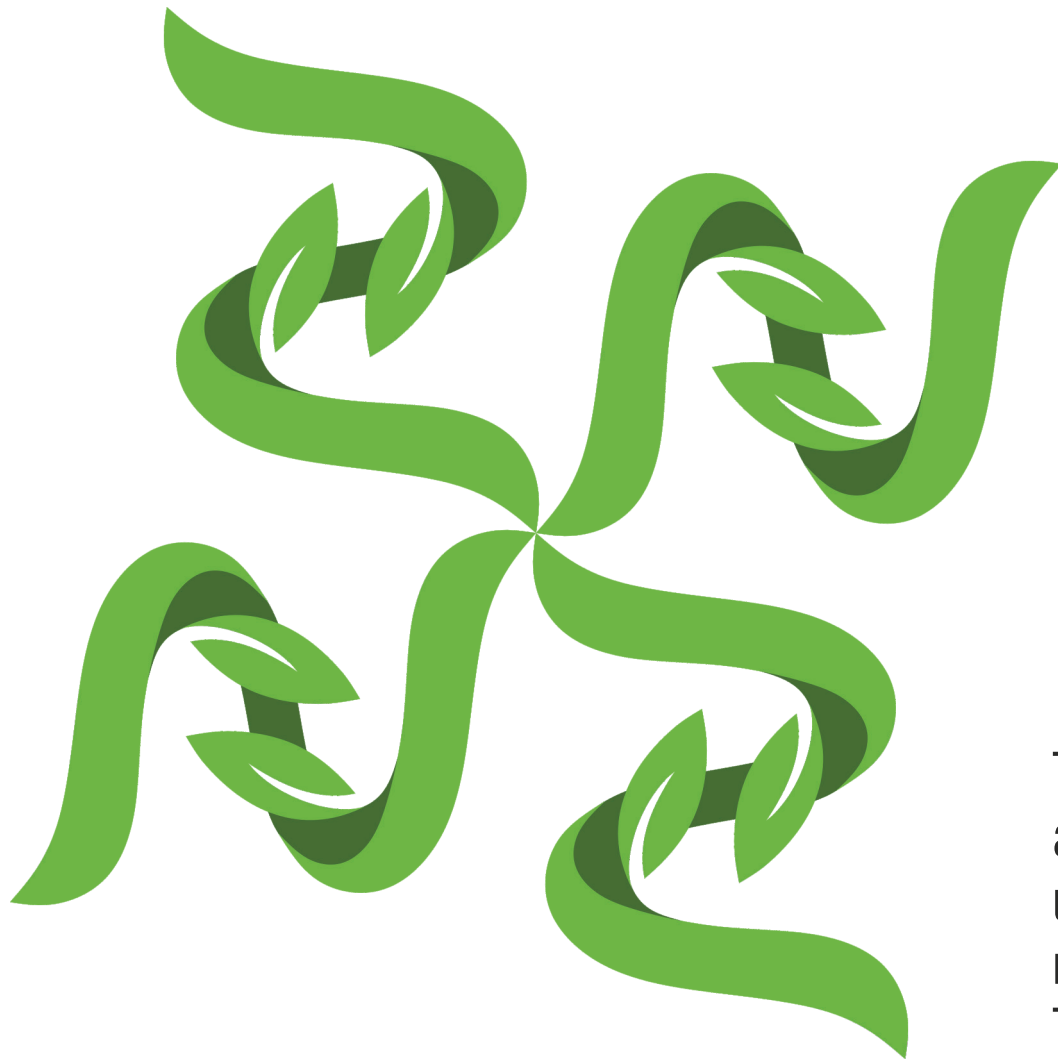

Logo Profile

**NUCLEAR FARM**

At **Nuclear Farm**, we are committed to bringing wholesome, natural products to every home, starting with our flagship product – Gir Ghee. As we continue to grow, our product line will expand to include butter milk, shilajeet, and more, all focused on promoting health and wellness.

# NUCLEAR FARM

The **Nuclear Farm** logo is designed with deep meaning and thoughtful elements. At its core, the initials '**NF**' are uniquely crafted to maintain symmetry and versatility; no matter how you rotate the logo, it looks the same. This symbolizes our commitment to consistency and balance in everything we do.

The letters '**N**' and '**F**' are artistically blended into one unified form. From every angle, the design remains distinct, reflecting our belief in harmony between nature and innovation. The rotating effect also conveys the dynamic and ever-evolving nature of Nuclear Farm, as we continue to introduce new products that cater to the needs of every household.

The color palette combines a light and dark shade of green, representing growth, nature, and sustainability. Green is also a nod to our connection with nature, with the leaves integrated into the 'F', emphasizing our dedication to natural products.
